

Optimising the digital journey

Product
Owner

Understand our goals

Understand business value and relay vision and strategy to our team to keep product on track

Goals & objectives

Improve digital channel share

- % of sales made through digital channels
- Website, mobile app, social media, email marketing etc.
- Offer exclusive promotions on digital channels
- Run advertisement campaigns for digital channels
- Target specific customer segments more likely to buy online

Increase conversion rate

- More people who visit the website complete a purchase
- People don't leave during the buy journey
- Enhance the user experience
- Making the journey simple, intuitive and fast
- Offer personalized recommendations based on data

Drive sales

- Improve revenue by the amount of sales we make
- Largely a result of the previous goals and strategies

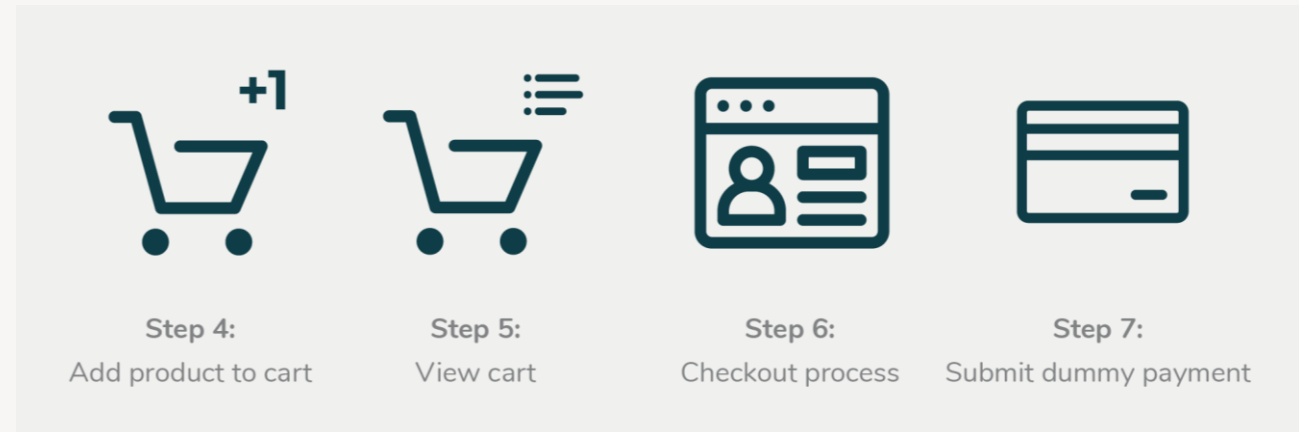

Identify issues using data

To ensure the product meets needs o the customer
and the team makes evidence-based decisions

What data can we use?

- Identify the leak in the funnel, so that we can rectify it and improve conversion rate
- “How long do users spend on each page”
- “At which page do users leave”
- Identify areas of success through
- “Where is traffic coming from”
- “Do users click where we want them to click”

Web analytics & customer journey mapping

What data can we use?

- Customer feedback and interviews
 - Identify pain points with open-ended questions
 - Gather feedback on specific features
 - Understand customer motivations
 - Gather specific requirements
 - Create most value

User testing

- Techniques like A/B testing to ensure we provide a valuable product
- Identify usability issues or bugs
- Improve user engagement

User story 1

“As a busy professional, I want to be able to setup broadband without having to fill out too many unnecessary details, so that I can get set up quickly”

User story 2

“As an older customer who is less comfortable with digital channels, I want to use the digital channels and the benefits of them with guides on how to use them”

Define opportunities

Use the evidence to identify next steps

Opportunities

Short

- Fix bugs
- Remove required steps and information
- Improving load times
- Optimize product descriptions

Medium

- Adding video guides
- Enhance the personalization based on data
- Improve search functionalities
- Provide a tab for customer reviews

Long

- Create a loyalty program to improve customer retention on digital channels
- Invest in AI to analyse data to make more informed decisions

Sprint planning and development

How I would work with the squad to put our plan into action

As a product owner, during development, I will:

- Create a product roadmap
- Prioritize features based on business value, user needs and technical feasibility
- Encourage agile methods to ensure the product is iterative, flexible and customer centric. Refining the vision, strategy and goals

Product roadmap + backlog (JIRA like tools)

Reduce amount of steps
in journey

Identify unnecessary
details

Remove form fields

Test new journey with
users

Create video guides on
how to use digital
channels

Identify target audience
for these videos

Liaise with marketing team
to develop videos

Deploy and test on site

Implement AI and ML
tools for data driven
deals

Consult AI and ML experts
on how to implement

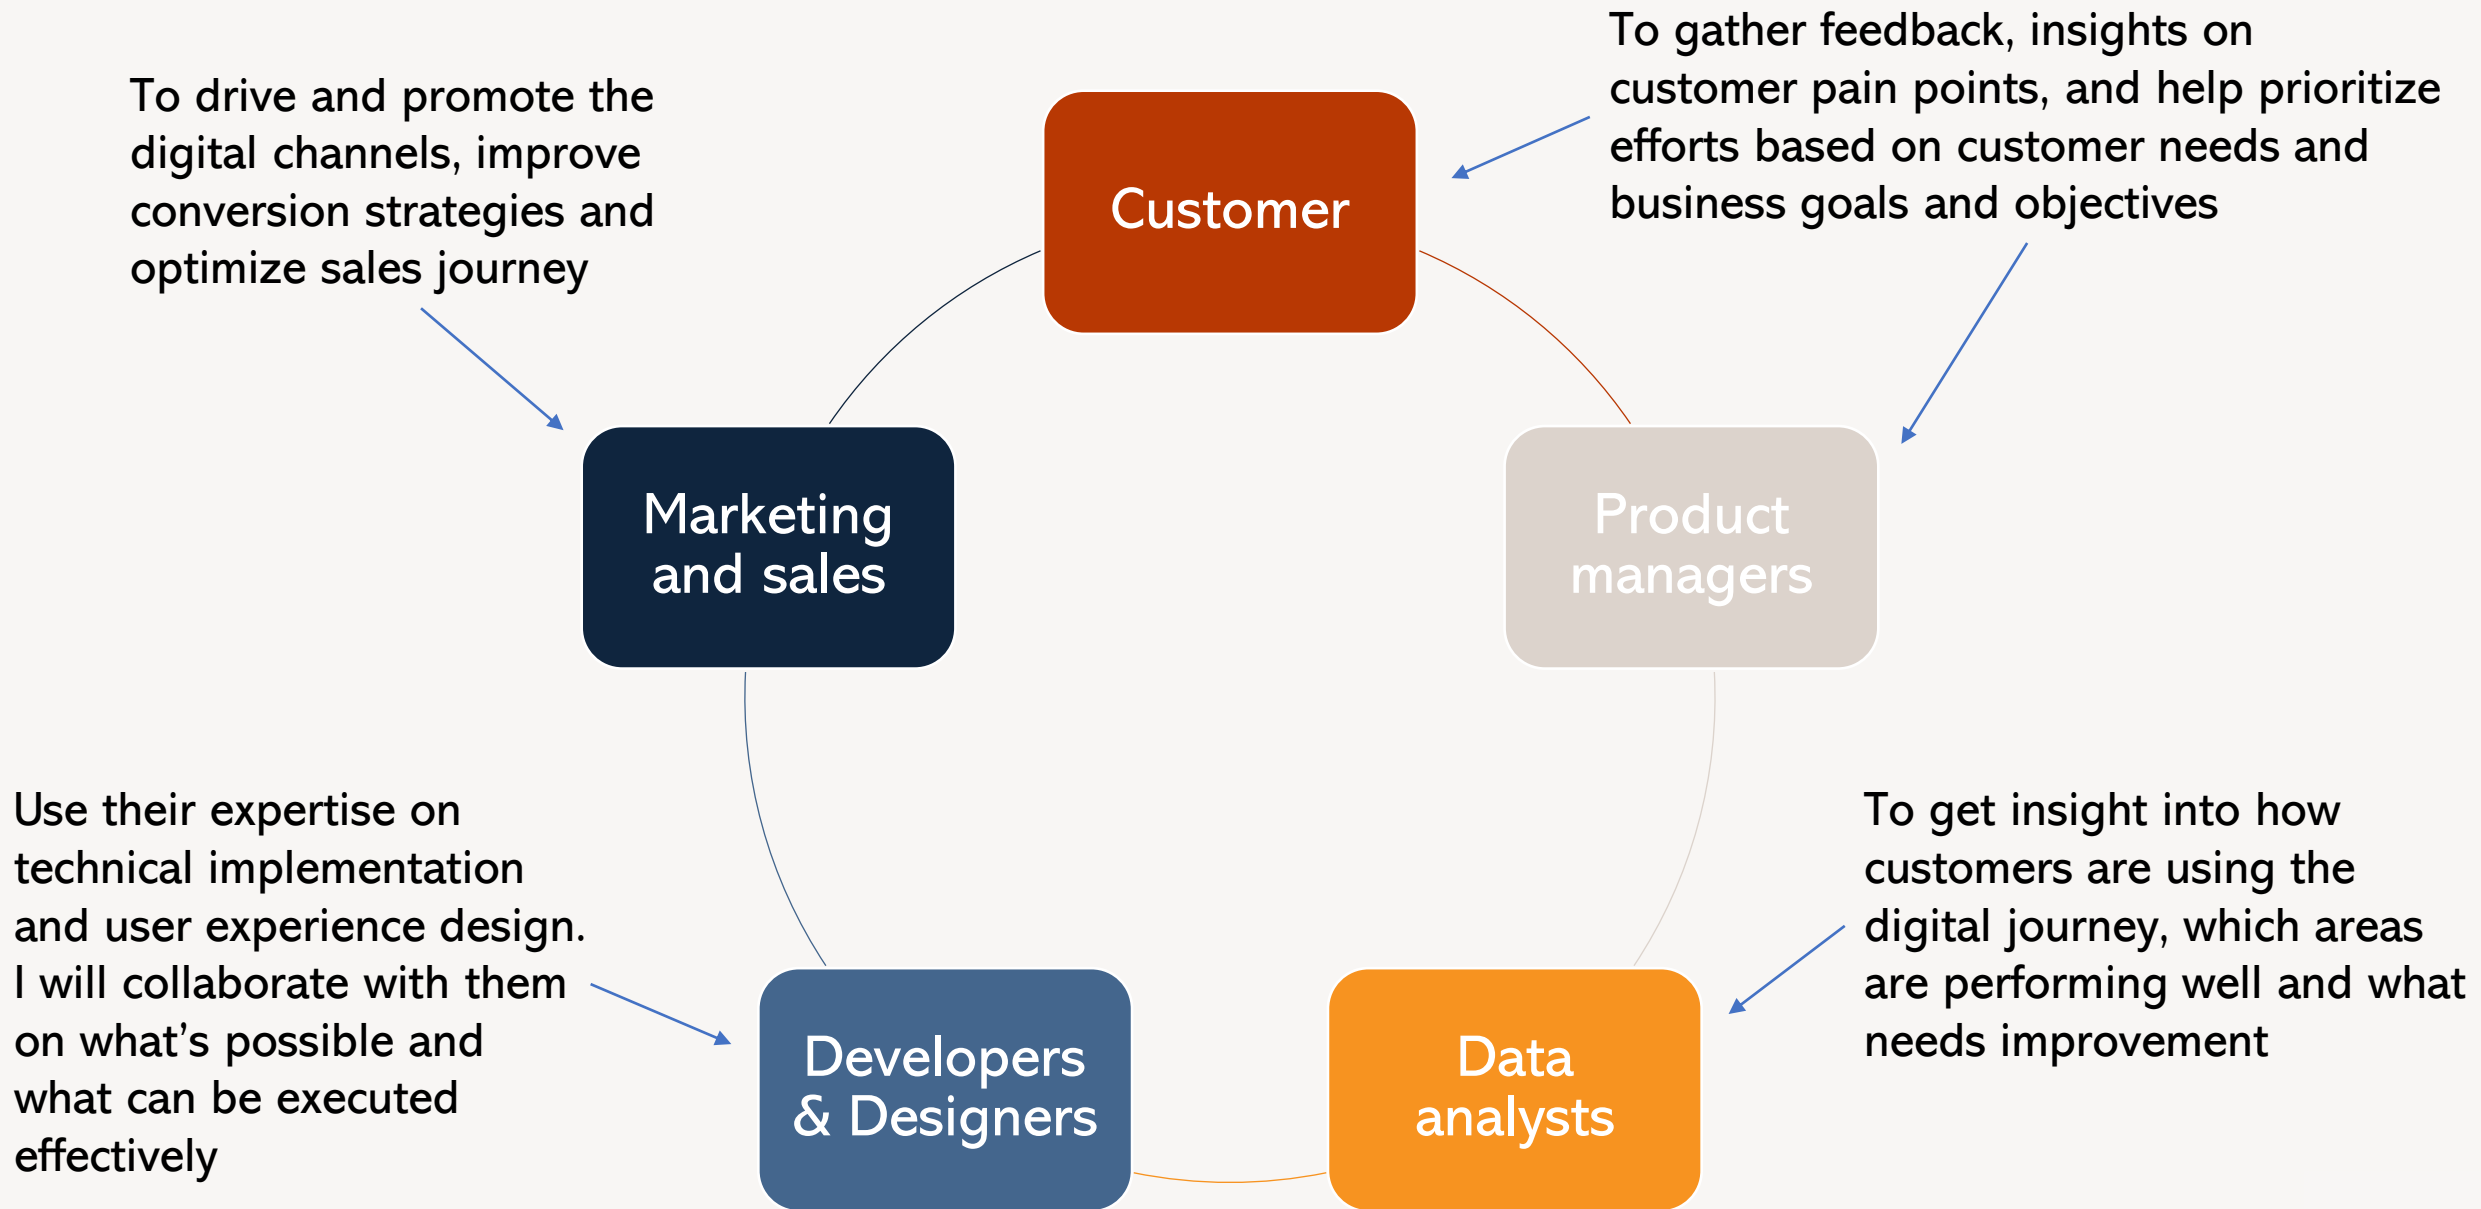

Create a MVP of this
before investing too much

Deploy and test on site

Stakeholders

How would I work with the rest of the squad?

Measuring success

Key metrics

Success metrics specific to our goals

- | | | |
|--|--|---|
| <ul style="list-style-type: none">• Improve digital channel share | <ul style="list-style-type: none">• Increase conversion rate | Drive sales |
| <ul style="list-style-type: none">- Track the sources of sales e.g. which channels have the most sales, revenue, customers etc.- Track time spent on each channel | <ul style="list-style-type: none">- Track the % of visitors to the site who made a purchase or filled out a form- Use customer satisfaction surveys and retention stats | <ul style="list-style-type: none">- Track the overall amount of sales and revenue |

A decorative graphic on the left side of the slide consists of a cluster of hexagons. Some hexagons are solid colors (light blue, orange, grey, dark blue), while others are white with black outlines. Several hexagons contain small images: a person in a meeting, two people working at a desk, a close-up of documents with charts, and a person looking at a whiteboard.

Thanks! Any questions?
